

PhD.CSCI - Formal Duration on Offer

The PhD.CSCI is intended to attract strong students into an interdisciplinary computationally-oriented research degree. The students are expected to hit the ground running with research given there is no course requirement (except CIS 6890 if they had not taken a similar course previously).

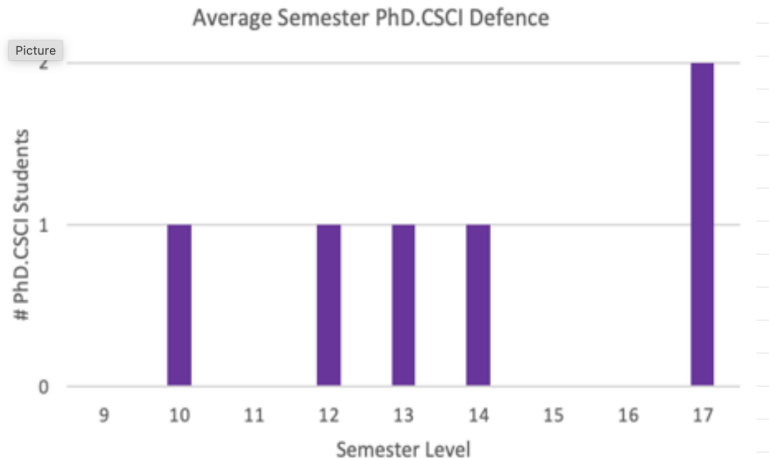

The official duration provided on Offers of Admission = 3 years (9 semesters).

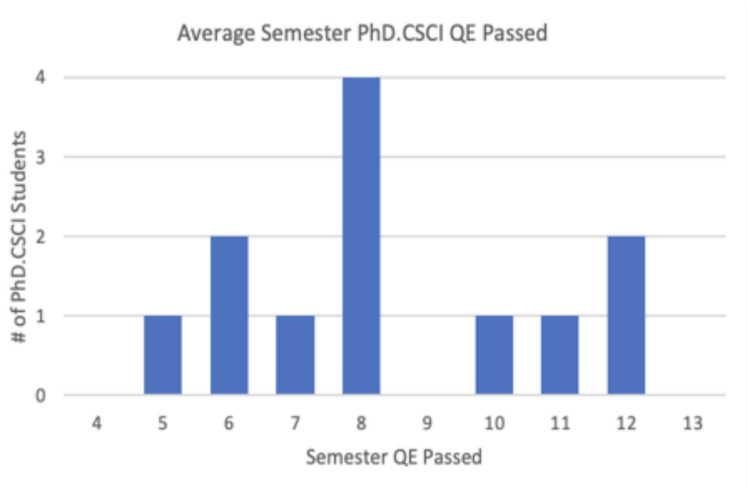

To date we have seen:

- ▶ 1 out of 6 students completing program in less than 12 semesters
- ▶ Average completion: 13.8 semesters
- ▶ Average QE: 8.4 semesters

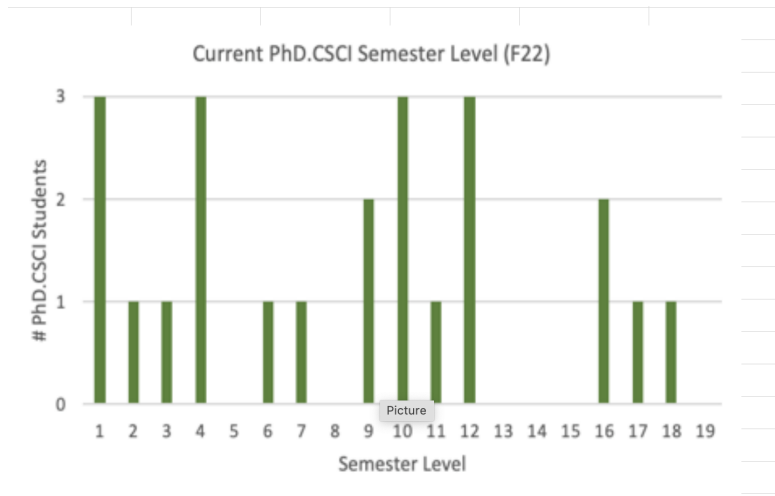

- ▶ Funding: GTA and advisor funding only guaranteed for 9 semesters
- ▶ Study permits based on the official completion time – issue for International students
