

CIS*3090 – Parallel Programming [0.5 credits]

Course Outline – Fall 2020

Instructor: David Calvert

Office : Reynolds Building, Room 2201

Email: dcalvert@uoguelph.ca

Timetable

Lectures: Lecture material is prerecorded and available on Courselink.

Discussions with the instructor and teaching assistants will be online and managed through Courselink.

These will be used to answer questions, discuss assignments, and for regrading assignments. Meeting times with the instructor will be during the scheduled class times (Tuesday, Thursday, 10:00-11:20). Advising times for the teaching assistant will be posted on Courselink. Updates regarding discussion times and topics will appear on the announcements page for this course on Courselink.

Textbook: An Introduction to Parallel Programming, by Peter Pacheco, Morgan Kaufmann, 2011.
ISBN-10: 0123742609

ISBN-13: 978-0123742605

NOTE: The textbook is available online through the campus library (www.lib.uoguelph.ca).

Course Web Page: All course material will be posted to Courselink (<https://courselink.uoguelph.ca>).

Marking Scheme

Programming

- Assignments: 5x20%

Notes:

- Assignments will primarily involve parallel programming using different software libraries.
- There is no group work in this course. Any work which is the product of more than one person's efforts is grounds for academic misconduct. All submitted code will be checked for copying. All parties involved will be reported to the Director of SOCS as participants in academic misconduct. See Academic Misconduct in Section VIII of the Undergraduate Calendar. The penalties for academic misconduct are described in the University of Guelph Undergraduate Calendar.
- Code which is submitted and does not compile or execute will be given a mark of zero.
- Failure to submit assignments correctly will result in a substantial loss of marks.
- Remarking of assignments will occur in the advising times for the teaching assistant. Requests for remarking will be considered for only one week after the assignment has been returned.

- Assignments may be handed in up to two days after the due date listed on the assignment with no penalty. **No other extensions will be granted.**

Lecture Topics

1. Multi-core and cluster platforms.
2. Parallel patterns.
3. Software libraries for parallel programming.
4. Data and task parallel approaches.

Semester Schedule

- Assignment 1 due Friday, Sept. 25
- Assignment 2 due Friday, Oct. 9
- Assignment 3 due Friday, Oct. 23
- Assignment 4 due Friday, Nov. 6
- Assignment 5 due Friday, Nov. 20

Calendar Description

This course examines the current techniques for design and development of parallel programs targeted for platforms ranging from multicore computers to high-performance clusters, with and without shared memory. It includes theoretical models for, and hardware effects on, parallel computation, the definitions of speedup, scalability, and data versus task-parallel approaches. The course will also examine strategies for achieving speedup based on controlling granularity, resource contention, idle time, threading overhead, work allocation, and data localization.

Prerequisite(s): (CIS*2030 or ENGG*3640), CIS*3110

E-mail Communication

As per university regulations, all students are required to check their mail.uoguelph.ca e-mail account regularly: e-mail is the official route of communication between the University and its students.

When You Cannot Meet a Course Requirement

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons, please advise the course instructor (or designated person, such as a teaching assistant) in writing, with your name, id number, and e-mail contact. See the undergraduate calendar for information on regulations and procedures for Academic Consideration.

Drop Date

Students will have until the last day of classes to drop courses without academic penalty. The regulations and procedures for course registration are available in their respective Academic Calendars.

Copies of out-of-class assignments

Keep paper and/or other reliable back-up copies of all out-of-class assignments: you may be asked to resubmit work at any time.

Accessibility

The University promotes the full participation of students who experience disabilities in their academic programs. To that end, the provision of academic accommodation is a shared responsibility between the University and the student.

When accommodations are needed, the student is required to first register with Student Accessibility Services (SAS). Documentation to substantiate the existence of a disability is required, however, interim accommodations may be possible while that process is underway.

Accommodations are available for both permanent and temporary disabilities. It should be noted that common illnesses such as a cold or the flu do not constitute a disability.

Use of the SAS Exam Centre requires students to book their exams at least 7 days in advance, and not later than the 40th Class Day. More information: www.uoguelph.ca/sas

Academic Misconduct

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it.

Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

The Academic Misconduct Policy is detailed in the Undergraduate Calendar.

Recording Materials

Presentations which are made in relation to course work—including lectures cannot be recorded or copied without the permission of the presenter, whether the instructor, a classmate or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

Resources

The Academic Calendars are the source of information about the University of Guelph's procedures, policies and regulations which apply to undergraduate, graduate and diploma programs.

Online Learning

Do not redistribute recorded interactive discussions that involve your classmates. This includes advising times with teaching assistants and question and answer sessions with the instructor.

Online activities such as advising times, question and answer sessions, and interactive lectures may be recorded by the instructor or TAs and posted to Courselink. By taking this course you are agreeing that your participation in these activities can be used in this manner. If you do not wish to have your image or voice recorded as part of these activities then either do not take this course or do not ask verbal questions during these activities.

A reliable internet connection that is sufficient for online learning is necessary for this course. If you do not have a sufficiently fast and reliable internet connection then you may not be able to view or download lectures or other course material. It may also not be possible to attend online advising with teaching assistants or the instructor.

This course is offered in the eastern standard time zone (EST). While taking this course then you may be required to attend online activities such as advising times or labs between 9:00 and 4:30 EST.

Keep copies of assignments which you have submitted. You may be asked to resubmit assignments at a later time.
